

NITTA GELATIN INDIA LIMITED

ENERGY POLICY

We, at NGIL are committed to continual improvement of energy efficiency, reduce energy cost, optimize capital investments for energy efficiency, reduce carbon foot print and conserve natural resources.

To promote efficient & effective use of energy, we shall:

- ✓ Ensure energy performance as a factor in procurement decisions, product development and in process & facility design.
- ✓ Secure adequate and reliable energy supplies at most advantageous rates and implement contingency plans to protect operations from energy supply interruptions.
- ✓ Comply with all legal and regulatory requirements relating to energy use, consumption and efficiency.
- ✓ Encourage continuous energy performance review by employees in their work related activities and report to top management.

Revision No: 00
