- D. The Transferor Company is having severe liquidity issues in servicing its debts especially towards the trade creditors and the advance payments from the promoters are going up in view of the continued loss making situation and it may take some time for the Transferor Company to tide over the situation to meet its payment commitments in the course of business. Further, it may require to provide for impairment losses in the Transferee Company's books for its investments into the Transferor Company following significant erosion in net worth owing to past accumulated losses. Consequent to the prevailing adverse financial conditions, banks show some reluctance to extend credit facilities to the Transferor Company on a standalone basis.

As requested by the management of Nitta Gelatin India Limited (hereinafter referred to as 'NGIL') and Reva Proteins Limited (hereinafter referred to as 'RPL') (hereinafter collectively referred to as the 'Management'), we have undertaken the valuation exercise of equity shares of RPL to recommend a fair exchange ratio for the proposed amalgamation of RPL with NGIL (hereinafter collectively referred to as 'the Companies').

All such parties expressly disclaim any and all liability for, or based on or relating to any such information contained in the valuation.

5. VALUATION APPROACH

- 5.1 For the purpose of valuation for amalgamation, generally the following approaches are adopted:
- (a) the 'Underlying Asset' approach,
 - (b) the 'Income' approach; and
 - (c) the 'Market' approach

- 5.2 As stated earlier, since RPS are being issued to the equity shareholders of NGIL as consideration for the proposed amalgamation, no valuation of equity shares of NGIL is required.
- 5.3 In the present case, RPL is intended to be valued on a 'going concern basis' and there is no intention to dispose-off the assets, therefore the 'Underlying Asset' approach is not adopted for the present valuation exercise.

6. VALUATION AS PER INCOME APPROACH

- 6.1 Under the 'Income' approach, shares of RPL have been valued using 'Discounted Cash Flow' (DCF) method.
- 6.2 Under the DCF method the projected free cash flows from business operations after considering fund requirements for projected capital expenditure and incremental working capital are discounted at the Weighted Average Cost of Capital (WACC). The sum of the discounted value of such free cash flows and discounted value of perpetuity is the value of the business.
- 6.3 The free cash flows represent the cash available for distribution to both the owners and the creditors of the business. The free cash flows are determined by adding back to profit before tax, (i) depreciation and amortizations (non-cash charge), (ii) interest on loans, if any and (iii) any non-operating item. The cash flow is adjusted for outflows on account of capital expenditure, tax and change in working capital requirements.
- 6.4 WACC is considered as the most appropriate discount rate in the DCF Method, since it reflects both the business and the financial risk of the Company. In other words, WACC is the weighted average of the company's cost of equity and debt. Considering an appropriate mix between debt and equity for the Company, we have arrived at the WACC to be used for discounting the Free Cash Flows of the Companies.
- 6.5 Appropriate adjustments have been made for cash and cash equivalents, present value of 6% Optionally Convertible Non-Cumulative Preference Shares ('OCNCPS'), value of investments and outstanding debt after considering the tax impact wherever applicable to arrive at the Equity value.
- 6.6 The equity value so arrived at is divided by the outstanding number of equity shares to arrive at the value per equity share of RPL.

7. VALUATION AS PER MARKET APPROACH

- 7.1 The market price of an equity share as quoted on a stock exchange is normally considered as the fair value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares.
- 7.2 Since the equity shares of RPL are not listed on any recognized stock exchanges, value under market approach is disclosed based on Comparable Companies Multiple Method.

8. RECOMMENDATION OF FAIR EXCHANGE RATIO

- 8.1 The fair basis of amalgamation of RPL with NGIL would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove. Though different values have been arrived at under each of the above approaches, for the purposes of recommending a ratio of exchange it is necessary to arrive at a single value for the shares of the Companies. It is however important to note that in doing so, we are not attempting to arrive at the absolute values of the shares of each company. Our exercise is to work out relative value of shares of the Companies to facilitate the determination of a ratio of exchange. For this purpose, it is necessary to give appropriate weightage to the values arrived at under each approach.
- 8.2 As mentioned earlier, the Management is proposing to issue RPS as consideration for amalgamation of RPL with NGIL. We have been further informed that RPS will carry a coupon of 6 months Libor + 500 basis points and shall be non-cumulative, non-participating and redeemable at par. We have been informed by the Management that the coupon of RPS is in compliance with existing EBC norms since RPS are being issued to promoters of NGIL (non-resident). Thus, the coupon of 6 months Libor + 500 basis points appears to be fair.
- 8.3 Further, shares of RPL are not listed on stock exchanges. Thus there is no market price available for the shares of RPL. Considering that RPL has recently changed business model from job processor to an independent manufacturer and seller, we have thought fit to give weightage only to value determined under Income Approach using DCF Method.

Valuation Approach	Value per share (INR)	Weight
Underlying Asset Approach *	1.27	-
Income Approach	9.27	1
Market Approach *	9.79	-
Value per share	9.27	

* Note: As mentioned earlier, we have not adopted the 'Underlying Asset' approach and 'Market' approach for the present valuation exercise. However, we have computed the value per share as per 'Underlying Asset' approach and 'Market' approach for information purpose only, as required by BSE Limited and National Stock Exchange of India Limited vide their circular No. LIST/COMP/02/2017-18 dated May 29, 2017 and NSE/CML/2017/12 dated June 01, 2017 respectively.

8.4 The share exchange ratio has been arrived on the basis of a relative valuation of the shares of the Companies based on the approaches explained herein earlier and various qualitative factors relevant to each company and the business dynamics and growth potential of the businesses of the companies, having regard to information base, management representations and perceptions, key underlying assumptions and limitations.

8.5 In the ultimate analysis, valuation will have to involve the exercise of judicious discretion and judgment taking into account all the relevant factors. There will always be several factors, e.g. present and prospective competition, yield on comparable securities and market sentiments etc. which are not evident from the face of the balance sheet but which will strongly influence the worth of a share. This concept is also recognized in judicial decisions. For example, Viscount Simon Bd in Gold Coast Selection Trust Ltd. vs. Humphrey reported in 30 TC 209 (House of Lords) and quoted with approval by the Supreme Court of India in the case reported in 176 ITR 417 as under:

'If the asset takes the form of fully paid shares, the valuation will take into account not only the terms of the agreement but a number of other factors, such as prospective yield, marketability, the general outlook for the type of business of the company which has allotted the shares, the result of a contemporary prospectus offering similar shares for subscription, the capital position of the company, so forth. There may also be an element of value in the fact that the holding of the shares gives control of the company. If the asset is difficult to value, but is nonetheless of a money value, the best valuation possible must be made. Valuation is an art, not an exact science. Mathematical certainty is not demanded, nor indeed is it possible.'

must be made. Valuation is an art, not an exact science. Mathematical certainty is not demanded, nor indeed is it possible.'

- 8.6 In the light of the above and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove referred to earlier in this report, in our opinion, a fair ratio of exchange in the event of amalgamation of RPL with NGIL would be as under:

One Hundred (100) Redeemable Preference Shares of NGIL of INR 10/- each fully paid up for every One Hundred and Eight (108) equity shares of RPL of INR 10/- each fully paid up.

Thank you,
Yours faithfully,

Dear Sir,

Re: Summary workings and issue of Redeemable Preference Shares of fair value per share and fair exchange ratio for the proposed amalgamation of Reva Proteins Limited with Nitta Gelatin India Limited to be submitted with the stock exchanges

This is in reference to your request for providing summary workings of fair value per share and fair exchange ratio for the proposed amalgamation ("amalgamation") of Reva Proteins Limited (hereinafter referred to as "RPL") with Nitta Gelatin India Limited (hereinafter referred to as "NGIL" or the "Company") for submission with the stock exchanges in the format as prescribed by per the circular number NSE/CML/2017/12 of National Stock Exchange of India Limited ('NSE') and LIST/COMP/02/2017-18 of BSE Limited ('BSE').

RPL is proposed to be amalgamated into NGIL, whereby NGIL will discharge the consideration to shareholders of RPL by issue of such number of Redeemable Preference Shares ('RPS') of face value INR 10 each carrying a coupon of 6 months Libor + 500 basis points to the shareholders of RPL based on the ratio of exchange. Considering this valuation of equity shares of NGIL has not been carried out and only valuation of equity shares of RPL with a view to recommend a ratio of exchange of RPS of NGIL to the equity shareholders of RPL has been carried out.

The equity share capital of RPL is given below:

Name of the equity shareholder	Shares	% of holding
Nitta Gelatin India Limited (NGIL)	140,60,520	74.55%
Nitta Gelatin Inc., Japan	48,00,000	25.45%
Total	188,60,520	100.00%

The entire Optionally Convertible Non-Cumulative Preference Shares (OCNCPs) is held by NGIL.

As part of the proposed Scheme of Amalgamation pursuant to the provisions of Sections 230 to 232 and other applicable provisions of the Companies Act, 2013, existing OCNPS and equity shares held by NGIL in RPL will be automatically cancelled on amalgamation.

Allotment of RPS based on ratio of exchange:

• **Nitta Gelatin India Limited**

Under the amalgamation shares held by NGIL are being cancelled, therefore no RPS will be allotted to NGIL.

• **Nitta Gelatin Inc, Japan**

Particulars	Amount
No of equity shares held in RPL (Nos.)	48,00,000
Fair Value per share of RPL (INR)	9.27
Total Value of RPL's holding (INR Lacs) (Rounded off)	444.44

Accordingly, the ratio of exchange as required by the format is given below:

Valuation Approach	Nitta Gelatin India Limited		Reva Proteins Limited	
	Value per Share (INR)	Weight	Value per Share (INR)	Weight
Asset Approach	NA	NA	1.27	0
Income Approach	NA	NA	9.27	1
Market Approach	NA	NA	9.79	0
Relative Value per Share	NA		9.27	
Exchange Ratio (Rounded off)			NA	

Valuation of equity shares of NGIL is not required considering the fact that RPS is proposed to be issued to the Shareholders of RPL on amalgamation.

Value per equity shares of RPL is INR 9.27 and face value of Redeemable Preference Shares (RPS) proposed to be issued by NGIL is INR 10 each, therefore Share Exchange Ratio is One Hundred (100) RPS of NGIL of INR 10/- each fully paid up for every One Hundred and Eight (108) equity shares of RPL of INR 10/- each fully paid up.

Based on the above NGIL will allot the following RPS to equity shareholders of RPL:

Name of the shareholder	RPS	Remarks
Nitta Gelatin India Limited (NGIL)	-	No RPS to be allotted since Inter Company Holding
Nitta Gelatin Inc., Japan	44,44,444	Based on Ratio of Exchange
Total	44,44,444	

Hope the above clarifies. Should you need further assistance, please feel free to contact us.

Thanking you,
Yours sincerely,
